SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT
 Scope of Work (SOW)
 Heavy Equipment Transporter Trailer (M1000) Block 1

C.1. Objective. The objective of this effort is to design, build, and demonstrate a 2007 production representative M1000 HET trailer integrating technology improvements which are appropriate for RESET/RECAP of the existing HET trailer fleet. Goals for the Block 1 improvements are to affordably increase performance, reliability and ease of maintenance through improved design and technology insertion, and decrease the HET trailer logistic footprint through increased parts commonality with other Army tactical vehicles.

C.1.1. The analyses performed under this contract will result in identification of a baseline HET trailer (M1000) RESET/RECAP Production cost, cost and performance improvements associated with each proposed enhancement, and a demonstration trailer that represents the production representative system with enhancements selected by the Government during a critical design review. The contractor shall review the potential HET trailer Block 1 enhancements and may propose additional enhancements not specifically listed in this Scope of Work. The additional enhancements may be presented by the contractor at the In-Progress Review (IPR) meetings.

C.1.2 Performance Requirements. The Block 1 HET trailer system shall be designed to meet or exceed the requirements of the HET trailer ORD, ATPD 2125C, and the current HET system.

C.1.3 The contractor shall submit monthly Cost/Schedule/Status reports IAW DI-MGMT-81467 throughout the project (CDRL A003).

C.1.4 All meeting minutes will be in a contractor format and shall be provided electronically to the Government within 14 calendar days of the meeting IAW DI-ADMIN-81505. The Government will review the minutes and provide concurrence/comments to the contractor, which the contractor shall incorporate and return to the Government as the final meeting minutes within 7 calendar days after receipt of the Government comments (CDRL A001).

C.2 Baseline. The contractor shall identify the basic configuration changes required to produce the M1000 trailers in FY07 as a result of component obsolescence, and regulation changes. The contractor shall deliver a report (CDRL A002) within 90 days of contract award describing the changes required to the M1000 trailers to update these configurations to produce the baseline HET trailer system. The baseline trailer configurations may include some or all of the updates identified in C.3 below.

C.3 Analyses. The contractor shall perform a feasibility assessment and analysis of alternatives for each of the capability enhancements described below for the M1000, as appropriate. For each of the enhancements, the contractor shall prepare a report, in contractor format (CDRL A004) that will be delivered to the Government within 120 days of contract award. The reports shall contain analysis of tradeoffs of various options for accomplishing the objective as well as recommending a preferred solution. A projected cost delta for RESET and RECAP from the baseline configuration shall be included for each enhancement.

C.3.1 M1000 Enhancements.

a. Auxiliary Power Unit (APU) M1000 Trailer. Electric alternative to the diesel engine APU providing comparable performance to the current system using power provided by the M1070 HET. Include analysis of the changes required to the M1070 HET to accommodate this requirement.

b. M1000 Brakes. Improve ease of maintenance and reduced maintenance burden of the trailer brake system. Include analysis of automatic slack adjusters and disc brakes in this assessment.

c. M1000 Axles: Reduce scheduled maintenance and improve maintainability of the trailer axles. Include equipping the M1000 trailer with sealed wheel bearings or unitized hubs in this assessment.

d. M1000 Lubrication. Reduce or eliminate the maintenance burden associated with lubrication of the trailer. Consider equipping the M1000 trailer with self-lubricating material for bushings and bearings. Review and / or redesign grease flow path for other bushings and bearings. Investigate the possibility of adding connecting tubing to localized groups of lubrication points that grease could be added to several lube fittings (zerk fittings) through one manifold.

e. M1000 Electronic Monitoring. Improve tire pressure maintenance to ensure safe operating pressures in the trailer tires and simplify tire pressure measurement. Consider equipping the M1000 trailer with electronic monitoring of tire pressure and mileage (odometer). Also, consider any required changes to the truck that may result from this effort, and methods of presenting tire pressure information to the driver in the vehicle cab during operation.

f. M1000 Rear landing Gear. Redesign of the rear landing gear cover to either improve or eliminate the top cover. Investigate a new landing gear design which will preclude the current problem with the cover and increase the operating speed/reliability of the rear landing gear legs.

g. M1000 Ramp Locking Device. Improve ramp locking device or a more robust chain to improve reliability and security of the ramp locking system.

CONTINUATION SHEET	Reference No. of Document Being Continued		Page 7 of 43

Name of Offeror or Contractor:

h. M1000 Chock Block Tie-Down. Improve the chock block mounting bracket design to securely stow the chock blocks, and eliminate the use of the bungee cords to secure the chock block in the mounting bracket.

i. M1000 Deck Improvements. Consider equipping the M1000 trailer with a more robust service cover to prevent damage to the covers when the trailer is used to carry cargo loads.

C.3.2. Start of Work. The contractor shall host a Start of Work meeting and idea interchange at the contractors facilities within 30 calendar days after contract award. This review is to be a free exchange of concepts and ideas for meeting the technical and schedule aspects of this SOW as well as an update of progress since contract award.

C.3.3. Critical Design Review. A Critical Design Review (CDR) shall be held at the contractors facility within 21 calendar days from Government receipt of AoA(s) to finalize design selection and other requirements stated in paragraph C.2 and C.3.1, in order to determine production representative vehicle configuration. The contractor shall document all design decisions reached during the CDR and present a report to the Government in contractor format within 14 days of the review (CDRL A005).

C.3.4 Trailer Production. The contractor shall produce one each M1000 demonstration trailer that represents the Block 1 HET trailer system configuration defined during the CDR. The trailer shall be used to demonstrate the capability and performance of the resulting trailer system configuration compared to the stated requirements, and to demonstrate the effectiveness of the enhancements. The trailer system shall be delivered to the Government within 365 days after contract award.

C.4 Government Furnished Equipment. PM HTV shall provide the contractor one each M1000 HET trailer to utilize for the initial demonstration identified in sec C.3.4, above. The Government will provide the identification of which U.S. Army assets on hand at the contractors facility to utilize after award of the effort.

If the item shipping costs, based on the actual shipping characteristics, exceed the item shipping costs used for evaluation purposes, the Contractor agrees that the contract price shall be reduced by an amount equal to the difference between the transportation costs actually incurred, and the costs which would have been incurred if the evaluated shipping characteristics had been accurate.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number-

(f) The Contractor is responsible for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Governments reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Name of Offeror or Contractor:		

(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business days written notification of its intention to:

I-90 52.222-39 NOTIFICATION OF EMPLOYEE RIGHTS CONCERNING PAYMENT OF UNION DUES OR DEC/2004
FEES

(a) Definition. As used in this clause--

United States means the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, and Wake Island.

(b) Except as provided in paragraph (e) of this clause, during the term of this contract, the Contractor shall post a notice, in the form of a poster, informing employees of their rights concerning union membership and payment of union dues and fees, in conspicuous places in and about all its plants and offices, including all places where notices to employees are customarily posted. The notice shall include the following information (except that the information pertaining to National Labor Relations Board shall not be included in notices posted in the plants or offices of carriers subject to the Railway Labor Act, as amended (45 U.S.C. 151-188)).

Notice to Employees

Under Federal law, employees cannot be required to join a union or maintain membership in a union in order to retain their jobs. Under certain conditions, the law permits a union and an employer to enter into a union-security agreement requiring employees to pay uniform periodic dues and initiation fees. However, employees who are not union members can object to the use of their payments for certain purposes and can only be required to pay their share of union costs relating to collective bargaining, contract administration, and grievance adjustment.

If you do not want to pay that portion of dues or fees used to support activities not related to collective bargaining, contract administration, or grievance adjustment, you are entitled to an appropriate reduction in your payment. If you believe that you have been required to pay dues or fees used in part to support activities not related to collective bargaining, contract administration, or grievance adjustment, you may be entitled to a refund and to an appropriate reduction in future payments.

For further information concerning your rights, you may wish to contact the National Labor Relations Board (NLRB) either at one of its Regional offices or at the following address or toll free number:

(c) The Contractor shall comply with all provisions of Executive Order 13201 of February 17, 2001, and related implementing regulations at 29 CFR part 470, and orders of the Secretary of Labor.

(d) In the event that the Contractor does not comply with any of the requirements set forth in paragraphs (b), (c), or (g), the Secretary may direct that this contract be cancelled, terminated, or suspended in whole or in part, and declare the Contractor ineligible for further Government contracts in accordance with procedures at 29 CFR part 470, Subpart B--Compliance Evaluations, Complaint Investigations and Enforcement Procedures. Such other sanctions or remedies may be imposed as are provided by 29 CFR part 470, which implements Executive Order 13201, or as are otherwise provided by law.

(2) Contractor establishments or construction work sites where no union has been formally recognized by the Contractor or certified as the exclusive bargaining representative of the Contractor's employees;

(3) Contractor establishments or construction work sites located in a jurisdiction named in the definition of the United States in which the law of that jurisdiction forbids enforcement of union-security agreements;

(ii) Such a waiver will not interfere with or impede the effectuation of the Executive order; or

(5) Work outside the United States that does not involve the recruitment or employment of workers within the United States.

(f) The Department of Labor publishes the official employee notice in two variations; one for contractors covered by the Railway Labor Act and a second for all other contractors. The Contractor shall--

(2) Download a copy of the poster from the Office of Labor-Management Standards website at <http://www.olms.dol.gov>; or

(3) Reproduce and use exact duplicate copies of the Department of Labor's official poster.

(g) The Contractor shall include the substance of this clause in every subcontract or purchase order that exceeds the simplified acquisition threshold, entered into in connection with this contract, unless exempted by the Department of Labor Deputy Assistant Secretary for Labor-Management Programs on account of special circumstances in the national interest under authority of 29 CFR 470.3(c). For indefinite quantity subcontracts, the Contractor shall include the substance of this clause if the value of orders in any calendar year of the subcontract is expected to exceed the simplified acquisition threshold. Pursuant to 29 CFR part 470, Subpart B--Compliance Evaluations, Complaint Investigations and Enforcement Procedures, the Secretary of Labor may direct the Contractor to take such action in the enforcement of these regulations, including the imposition of sanctions for noncompliance with respect to any such subcontract or purchase order. If the Contractor becomes involved in litigation with a subcontractor or vendor, or is threatened with such involvement, as a result of such direction, the Contractor may request the United States, through the Secretary of Labor, to enter into such litigation to protect the interests of the United States.

- (b) Any offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of 48 CFR Chapter 99 must, as a condition of contracting, submit a Disclosure Statement as required by 48 CFR 9903.202. When required, the Disclosure Statement must be submitted as a part of the offeror's proposal under this solicitation unless the offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal. - (xxiii)All isomers of the substances listed in this paragraph (a)(1) except for 1,1,2-trichloroethane, which is an isomer of methyl chloroform.

(2) Directly requires the use of CIODS means that the Government's specification or technical data package, at any tier, explicitly requires the use of any Class I Ozone-Depleting Substance (CIODS) in performance of the contract.

(3) Indirectly requires the use of CIODS means that the Government's specification or technical data package, while not explicitly requiring the use of any CIODS, does require a feature that you can meet or produce only by the use of CIODS.

(b) Per Section 326 of Public Law 102-484, the Department of Defense cannot award any contract that directly or indirectly requires the use of CIODS unless (i) the use of such substances is essential for contract performance, and (ii) no suitable substitute for the CIODS currently is available.

(c) Before releasing this solicitation, we conducted a best effort review of its technical requirements, standards, and specifications, to see if any contain requirements for CIODS. If we identified any such CIODS requirements, they are identified in subparagraph (d)(1) below.

(1) In addition, to help TACOM meet its obligations under Public Law 102-484, we ask you for input. If you have any special knowledge about any CIODS requirements that our specifications impose, whether directly or indirectly, or if you know about potential substitutes for any CIODS required by our specifications, we would appreciate the information.

(2) It should be understood that you are not obligated to give us the information requested by this provision, and that we cannot provide any separate or special payment for doing so. However, we are asking only for information based on knowledge that is readily available to you as a supplier in this industry. We do not expect you to do any review of our specifications more extensive than the one you perform in order to develop your price.

(d) Please summarize your own review of our specification/technical data package, by completing the following:

(1) During our review of the specification or technical data package in this solicitation, we--

- ☐ have
- ☐ have not

found any direct requirements to use any CIODS. (If have is checked above, offerors are asked to identify, on the following lines, (i) any specifications and standards not already listed immediately below that directly require the use of CIODS; (ii) the CIODS required by the listed specifications and standards; and (iii) whether any substitutes are known to be available for the listed CIODS.)

<u>Spec/Standard</u>	<u>Required CIODS</u>	<u>Substitute Available?</u>
<div></div>	<div></div>	<div></div>
<div></div>	<div></div>	<div></div>

(2) Further, in our review of the specification or technical data package in this solicitation, we--

- ☐ have
- ☐ have not

found any indirect requirements to use any CIODS. (Offerors who check have above are asked to identify, on the following lines, (i) the specifications and standards for this acquisition that indirectly require the use of CIODS; (ii) the CIODS indirectly required by each listed specification and standard; and (iii) whether any substitutes are known to be available for the listed CIODS.)

<u>Spec/Standard</u>	<u>Required CIODS</u>	<u>Substitute Available?</u>
<div></div>	<div></div>	<div></div>
<div></div>	<div></div>	<div></div>

(e) Offerors who check have in paragraphs (d)(1) or (2) above also are requested to say whether substitutes are known to be available for any of the CIODS. If an available substitute would perform less well than the CIODS would perform, please let us know what the technical trade-offs are to the extent that you have such information available.

(f) If you checked have in paragraphs (d)(1) or (2) above, and also indicated that substitutes for CIODS are available, we need to

know whether use of the suggested substitute would have any effect on your proposed price. If your proposal price for compliance with our current specifications differs from what your price would be if the substitute for CIODS were required, we ask that you let us know what the difference would be in Section B of this solicitation, by giving us two prices or offers:

--One price/offer, labeled with CIODS, will be the offered price in the event that CIODS are used.

--The second price/offer, labeled without CIODS, will be the price offered if substitutes for CIODS are used, and will specify the substitute(s) being proposed for use.

(g) Section 326 of Public Law 102-484 reflects the national and international interest in minimizing the use of CIODS. For this reason, TACOM reserves the right to (i) determine the suitability of substitutes for CIODS when such potential substitutes are available; and (ii) change the specification in any contract awarded as a result of this solicitation, to require the use of suitable substitutes in lieu of CIODS.

(a) Exceptions from cost or pricing data.

(1) In lieu of submitting cost or pricing data, offerors may submit a written request for exception by submitting the information described in the following subparagraphs. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted, and whether the price is fair and reasonable.

(i) Identification of the law or regulation establishing the price offered. If the price is controlled under law by periodic rulings, reviews, or similar actions of a governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.

(ii) Commercial item exception. For a commercial item exception, the offeror shall submit, at a minimum, information on prices at which the same item or similar items have previously been sold in the commercial market that is adequate for evaluating the reasonableness of the price for this acquisition. Such information may include --

(A) For catalog items, a copy of or identification of the catalog and its date, or the appropriate pages for the offered items, or a statement that the catalog is on file in the buying office to which the proposal is being submitted. Provide a copy or describe current discount policies and price lists (published or unpublished), e.g., wholesale, original equipment manufacturer, or reseller. Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price of recent sales in quantities similar to the proposed quantities;

(B) For market-priced items, the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market;

(C) For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item.

(2) The offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and the reasonableness of price. For items priced using catalog or market prices, or law or regulation, access does not extend to cost or profit information or other data relevant solely to the offerors determination of the prices to be offered in the catalog or marketplace.

(b) Requirements for cost or pricing data. If the offeror is not granted an exception from the requirement to submit cost or pricing data, the following applies:

(1) The offeror shall prepare and submit cost or pricing data and supporting attachments in accordance with Table 15-2 of FAR 15.408.

(2) As soon as practicable after agreement on price, but before contract award (except for unpriced actions such as letter contracts), the offeror shall submit a Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406-2.
